The sunlight on my shoulder
The smile on my face
My secret weapon
My favorite place
The reason my heart skips a beat
The broom that sweeps me, off my feet

A gentle inspiration
My weary soul's salvation
The half that makes me whole
The gravity that grounds me
The arms I want around me
Never letting go

I've lived, I've lived enough
To know what is, and what's not
You are - you are

All the love I wanna make
Every breath I wanna take
The rush thats running, down my spine
The touch that takes me every time
An innocent seduction
I can't get enough and
I can't help but let it show
I lose all my composure
I'm totally exposed and
The reason I let go is...

I've lived, I've lived enough
I know what is, and whats not
You are - you are

My every hope, my every dream
You are my everything

I've lived, yeah
I've lived enough
I know what is, and I know whats not
You are - you are
you are - you are

Th sunlight on my shoulders, the smile on my face
My secret weapon, my favorite place
