(Verse)

Turn it up, turn it up
Feel the love, feel the love
In the air, on the streets, all around
Now let's go, let's go

(Bridge)

Don't be afraid, it's inside of you
No time to wait, you got nothing to lose
Right now the world lies at our feet
Want you to come with me

(Chorus)

By the end of this line I'mma have you all singing to
my song, to my song
You'll be dancing in the bloody lights, you know the
energy's so strong
And you're feeling alive
Never felt so alive

(Verse)

Here we are, here we are
Staring up at the stars
We can do anything that we want
So come on, come on

(Bridge)

Don't be afraid, it's inside of you
No time to wait, you got nothing to lose
Right now the world lies at our feet
Want you to come with me

(Chorus)

By the end of this line I'mma have you all singing to
my song, to my song
You'll be dancing in the bloody lights, you know the
energy's so strong
And you're feeling alive
Never felt so alive

Never felt so alive!

(Interlude)
Come on
Uh yea yea
Come with me
Let's never leave
Everything you've been waiting for
Everything you've been waiting for
Is right here
Right now
And don't you feel so alive?

(Chorus)
By the end of this line I'mma have you all singing to
my song, to my song
You'll be dancing in the bloody lights, you know the
energy's so strong
And you're feeling alive
I never felt so alive

Baby baby baby
Baby baby baby
Baby baby baby
Baby baby baby
