There I said it, it's out of my mouth
I hope you heard it cause it's too late now
Do you get it, that I come unglued
When I pick up the phone and I see that it's you

Don't wanna rush it but I'm letting you know
Just what I'm feeling from my head to my toes
And I can't help it if I don't make sense
But I've made up my mind, jumping off of the fence

(Ooh) We can't deny, (ooh) girl you and I
(Ooh) Fit together like a hand in a glove
Like a kiss and a hug, girl you're the one

The stars have got an endless sky
And the melodies got words that rhyme
And baby I got you (I got you, I got you)
Like Sonny and Cher on the TV screen
My heart has found the missing piece
Cause baby I got you (I got you, I got you)
I got you

Yea I got you baby

What you thinking, cause you're smiling at me
While I'm standing here with my heart on my sleeves
So come and take it cause it's already yours
Gonna call off the search, found what I'm looking for

(Ooh) We can't deny, (ooh) girl you and I
(Ooh) Fit together like a hand in a glove
Like a kiss and a hug, girl you're the one baby

The stars have got an endless sky
And the melodies got words that rhyme
And baby I got you (I got you, I got you)
Like Sonny and Cher on the TV screen
My heart has found the missing piece
Cause baby I got you (I got you, I got you)

I got you and you got me

When you're around I'm so happy
Cause this thing we got makes people wanna stop
Take a picture cause it's so beautiful
You make me wanna shout it
Tell the world all about it
And no matter where I go, what the future holds
I got you

The stars have got an endless sky
And the melodies got words that rhyme
And baby I got you (I got you, I got you)
Like Sonny and Cher on the TV screen
My heart has found the missing piece
Cause baby I got you (I got you, I got you)

La la la la la la...
(I got you, I got you)
La la la la la la...
(I got you, I got you)
Cause baby I got you
(I got you, I got you)
Cause baby I got you, yea
