she was my world, she was my everything
so like the sun shining on the first day in spring
she was the one, the one i let get away
she was the girl that i should have begged to stay
oh a thousand times you know that i played it back and
then rewind
cause i can't explain what's all so clear that she's still
gone and i'm still here

now i cry these tears we've all known, baby i cry
wishing i can ease the pain, but now the shades come
and gone, yeah, yeah
i only have myself to blame
cause she don't love me, that she don't love me
why don't you love me?
that she don't love me, that she don't love me

there was like she stepped down from a fairy tale
... place to me no wonder why i fell, no
and she stole my heart the moment i saw her eyes, i
saw here eyes
and she broke that heart and she walked out of my life

oh a thousand times you know that i played it back and
then rewind
cause i can't explain what's all so clear that she's still
gone and i'm still here

now i cry these tears we've all known, baby i cry
wishing i can ease the pain, but now the shades come
and gone, yeah, yeah
i only have myself to blame
cause she don't love me, that she don't love me
why don't you love me?
that she don't love me, that she don't love me
that she don't love me, yeah
sometimes i sit and wonder where did my baby go?
and it's slowly going under, oho, what am i supposed
to do
when i'm so in love with you,
and no matter what i try
