Shorty lookin' right in the club
I know she feelin' me but she takin' her time
(But she takin' her time)
She dancing all by herself
But I know by the way she moves, she wanna get it
tonight
(She wanna get it tonight)

So I stepped to her and asked her, "What's your name,
girl??
She turned around and said, "It doesn't matter
It's about time you came
I've been waitin' all night for you"

So I said, "Let's go?
Let's get it started
And let's leave this party
'Cause you're lookin' so fine tonight, tonight"

So, let's go
Girl, what's your pleasure?
Baby, I'm down for whatever
As long as you're mine tonight, tonight
Let's go

Come on move your body girl, yeah
Just wanna see you move your body girl
Let's go
The way you move your body girl
You make a man wanna rock your world

As we walkin' outta the door
She said, "Hold up boy I left somethin' inside"
(I left somethin' inside)
Turns out that what she forgot
Was in high heels and about five foot five
(And about five foot five)

So I asked her, "Does your girlfriend need a ride?"
Yeah
She said, "No 'cause she ain't goin' home tonight"
And that was cool with me

So I said, "Let's go
Let's get it started
And let's leave this party
'Cause you're lookin' so fine tonight, tonight"

So, let's go
Girl, what's your pleasure?
Baby, I'm down for whatever
As long as you're mine tonight, tonight

Never even had to find the words to say
'Cause she was 'bout it, 'bout it baby right away
Can't believe the way they put it down on me
So smart about it and now they got me in between

Come on move your body girl
Just wanna see you move your body girl
The way you move your body girl
You make a man wanna rock your world

So I said, "Let's go
Let's get it started
And let's leave this party
'Cause you're lookin' so fine tonight, tonight"

So, let's go
Girl, what's your pleasure
Baby, I'm down for whatever
As long as you're mine tonight, tonight

So I said, "Let's go
Let's get it started
And let's leave this party
'Cause you're lookin' so fine tonight, tonight"

Let's go
Girl, what's your pleasure?
Baby, I'm down for whatever
As long as you're mine tonight, tonight

Let's go
Let's go
So I said, "Let's go"
