(Verse)

Grab a glass, fill it high
Tomorrow's just another day
You gotta work at 9
But tonight we're staying out til late

(Bridge 1)

And we might not make it home
Make it home
'Cause it's gonna be one of those
One of those

(Bridge 2)

We're old enough to know better
But too young to care
Yea, we're old enough to know better
But too young to give a damn

(Chorus)

I tear it up, you tear it up
We don't apologize
I got my drink, you got your drink
It's going down tonight
We may be old enough to know better
But we're too young, too young to care

(Verse)

Take a chance, let it go
Dive on in with all your clothes on
It's your life, don't you know?
You can do whatever you want

(Bridge 1)

And we might not make it home
Make it home
'Cause it's gonna be one of those
One of those

(Bridge 2)

We're old enough to know better
But too young to care

Yea, we're old enough to know better
But too young to give a damn

(Chorus)

I tear it up, you tear it up
We don't apologize
I got my drink, you got your drink
It's going down tonight
We may be old enough to know better
But we're too young, too young to care

Too young to sit around (too young!)
Too young to slow it down (too young!)
Too young to care about
Anything but tonight

(Bridge 2)

We're old enough to know better
But too young to care (too young to care)
Yea, we're old enough to know better
But too young to give a damn (I don't give a damn)

(Chorus)

I tear it up, you tear it up
We don't apologize
I got my drink, you got your drink
It's going down tonight

(Bridge 2)

We may be old enough to know better
But too young to care (too young to care)
Yea, we're old enough to know better
But too young to give a damn (I don't give a damn)

(Chorus)

I tear it up, you tear it up
We don't apologize
I got my drink, you got your drink
It's going down tonight
We may be old enough to know better
But we're too young, too young to care
