Do you mind if just get...
One of my favorite songs
Yeah, yeah, yeah

Somebody's mind, yeah
Is what they said it back about a dozen times
But I need it back from you!
She looking to fight me!
Just... haven't changed what I needed there from you
But I'm good at taking care of me, boy
I'm spending time just taking care of me right now!
But I'm good at taking care of me, boy
Cause you're getting tired to taking care of me right
now!
Oh, oh, oh yeah, yeah

The good ones go, the good ones go, didn't you know?
But the good ones go, the good ones go, didn't you
know?
So you should go, you should go, since you're lost!

Don't you will get married, don't you will get engaged?
I know you're getting older, don't have no time to waste
I shouldn't be much longer, you shouldn't have to...
Can't lose it, can't help it, I'm so sorry, I'm so sorry!
I've been living with... the light shine bright and the city
go
I guess you're wondering who I am, my name is about
you
R&B princess from the inside of Toronto
Cause to be here with all of you, I know, I know, I know!
Yeah, how are you feeling?
