Every word you say to me
Uncovers your hypocrisy
Your lips are filled with sugar
But your taste is bittersweet

I don't wanna throw away
The time we spent
The mess we made together
But I think we're better
Alone

You started out with chemistry
You finished every breath for me
But now the air is changing
I reach in
You pull back
It's awkward
We know that it's gone so wrong

I should know I'm better off without you
But I can't let go
When you're in my arms
How do I fall out of love
How do I fall out of love
Without you

We're on a different frequency
We argue just to disagree on simple things
We pull each other's strings
I'm turning into something that I don't wanna be
You always find a way to bring the worst outta me

I should know I'm better off without you
But I can't let go
When you're in my arms
How do I fall out of love
How do I fall out of love
Without you

I've gotta find out who I am without you
Take a little time to figure out
The lying, the cheating,

What keeps my heart beating
Without you
Without you

I should know Iâ€™m better off without you
But I canâ€™t let go
When youâ€™re in my arms
How do I fall out of love
How do I fall out of love
Without you

I should know Iâ€™m better off without you
But I canâ€™t let go
When youâ€™re in my arms
How do I fall out of love
How do I fall out of love
Without you
