So you left me by
you didnt even try what to say
I wonder if youll find what you left behind
that perfect day
I wonder if you lie even though i cried its my misstake
So how will i learn
will i ever learn what I say

Cause i wanted it so bad
what i never had
I wanted it so bad, so bad
So how long, its all wrong
Cause im not that strong please tell me how long

So you walked away
you couldnt even stay, for a while
I wonder why I lost now I think I must pick that old smile
cause I had to find my spark standing in the dark I lost
my friend
im given for your pain though its turning me insane is
this the end

Cause I wanted it so bad
what I never ever had
though i wanted it so bad, so bad
So how long, its all wrong
Cause im not that strong please tell me how long

So how long, its all wrong
cause im not that strong please tell me how long

So you left me by you didnt even try what to say
