Verse 1

Papi just let me say oohh, I got a feeling in my back
bone,
grinding my body, can I get it with the track on,
ah shit he got the fitted with the black on, black looking
killer, by the way that's how I like em,
it's a party in the hood and they say its tight, and
that head right, bet we there every night,
I got my fitted on (check)
got my dickies (check)
got my itchy for them niggas tryna get me home
(check)
got my butter right, got the hummer tied (check)
got that lumber to jump up and take another flight
(check)
so what you wanna do, it could be me or you,
or we could play like nothing popping and just keep it
cool,
we went from hardly speaking, and hardly sleeping, im
oddy thinking that he got my body reaching,
for places that I never seen before, and by the way I
got something for you to see me boy

Chorus

So real so right, wanna get with you tonight, I wanna
feel good, feel right, making love to you all night,
shawty so fly, baby you stay on my mind, wanna get
with you tonight, ritee

Verse 2

Im getting drunk with my bitches, and then he hit me
up,

pick me up,
im looking good as hell and got a babysitter,
I see you later ya'll, im crazy bout this nigga,
and dey it aint really feeling him, yo they be really
killing him, illing him, and grilling him,
but yo Im silly digging him,
and I be going so on and on and, cause he keep me
moaning from night to morning,
calling your phone when im knowing you aint home,
sorry,
but baby I don't wanna be alone shawty, get at me

just as soon as you get in,
pumping janet in the background and im sipping hen,
with some nice little something with straps on my legs,
can you blind fold, tie me to the strap on the bed, let
my legs spread stretch em to the back of my head, is
you playing boy maybe you forgot what I said, can you
dig?

Chorus

So real so right, wanna get with you tonight, I wanna
feel good, feel right, making love to you all night,

Verse 3

And everytime I see, I wanna be all up on him, and I
want him all up in me,
and when I move through the city, I want him rolling
with me,
I cant explain how he feel and how his body fit me,
we stick together whatever like its bobby and whitney,
thatâ€™s through the thick and thin,
soaking and stick it in, joking and kicking it, smoking
and stick it --, I swear to god though,
I been feeling shawty from the start though, fuck
around and got me for my heart though,
but im good with it, cause he keep it hood with it, and
he aint afraid to beat it up like he should with it, got the
chevy pulled in it, and I love when we ride, throw them
thangs up shawty, put yo guns in the sky, I be down for
my nigga like im down for my team, stay around for my
nigga,
while he down for the beam, we just keep it trill, we
donâ€™t need no child or no ring, for the time being ,
got me going wild on some things naa mean

Chorus

So real so right, wanna get with you tonight, I wanna
feel good, feel right, making love to you all night,
shawty so fly, baby you stay on my mind, wanna get
with you tonight, ritee
