Do you wish that you could turn back time,
Change a moment in the past?
Your life will slowly turn around,
And you got what you wanted at last
Everything will turn out to be okay
But you know your life will never be that way, yeah

Everything is going wrong and nothings quite the same
You're walking down the same old road in the pouring
rain
The sun has set the world has gone to sleep
But you're still walking on your tired feet

Just try and be strong
Take of the mask and show the face beneath
Don't be afraid to be who you wanna be
And everything will be just fine someday
It's just that we got lost along the way.

Tears are rolling from your eyes there's nothing you
can do
But hold on to those memories you have of me and you
Just hold on tight don't let them slip away
Trust me I'll be back again someday

Just try and be strong
Take of the mask and show the face beneath
Don't be afraid to be who you wanna be
And everything will be just fine you'll see
And someday you'll be lying next to me
And everything will be just fine someday
It's just that we got lost along the way.
