We broke every rule in the book  
And tried to make a scene  
we ran outta school looking cooler than  
last year's high school beauty queen

Making history's what we do  
and we do it with style  
we break down the doors of harmony  
and party for a while

Join the revolution  
Runnin hand in hand  
see the pieces of our broken hearts and you will  
understand  
why we're runnin  
to stand where we once stood  
and finally say that we have changed the world  
for good

If we just wanna be heard  
we'll find a way to scream and shout  
by the time we're done having our fun  
you'll know what we're all about

listen to the tunes we sing  
and try to sing along  
the more voices heard the louder the noise  
and that's what makes us strong

lalalalalalalala
