I know that this may be confusing  
And our future may be hazy  
And why I feel this way, I don't know  
It may sound crazy

I wanna wake up to your smile each and every day  
Show you how much you care in every possible way  
Hope the love that we share, never goes away, yeah

The sound of your voice is something I'd never miss  
As we stand here at the scene of our first kiss  
And I'll ask you and beg you to stay  
I hope I'm not pushing you away  
Just let me call you mine  
And I'll be forever yours

We sit and watch the fire flies  
And gaze into each others eyes  
And I know I'm a right where I belong  
We sit and kiss in the sand  
You hold on tightly to my hand

I don't even care if I am wrong  
And I know we will be strong  
And we'll make it through the storms  
Even if I'm wrong
