Candy-O I need you
Sunday dress ruby rings
Candy-O I need you so
Could you help me in

Purple hum, assorted cards
Razor light, you bring
And all to prove
You're on the move
And vanishing

Candy-O I need you so
Candy-O I need you so

The edge of night distracts yourself
obstacles don't work
Homogenize, decentralize
It's just a quirk

Different ways to see you through
All the same in the end
Peculiar star that's who you are
Do you have to win

Candy-O I need you so
