Winter

If we hold onto each other

Life would be so sweet

If we hold onto each other

Life would be complete

All this time

Winter was coming

All this time

December air was blowing

All this time

Leaves of fall were stirring

All this time

Winter was coming

We can't hold onto each other

Life would be so sweet

We can't hold onto each other

Life would be complete

All this time

Winter was coming

All this time

December air was blowing

All this time

Leaves of fall were stirring

All this time

Winter was coming

This time

How can I take no

This time

How can I take no

If we hold onto each other

Life would be so sweet

If we hold onto each other

Life would be complete

All this time

Winter was coming

All this time

December air was blowing

All this time

Leaves of fall were stirring

All this time

Winter was coming

All this time

All this time

All this time

All this time
