Why don't you love me like they do
Why don't you see me you're a fool
Why don't you fall for me
Like I did fall for you

Why can't I cross you off my list
How could I put myself through this
Did I lose everything everything
to this

Cause you are nothing nothing
you mean nothing nothing
You were everything to me
oh how you swept me off my feet

You are nothing nothing
you mean nothing nothing
you were everything to me
and now I'm everywhere you see

Do you come when she begs for you to stay
When she scratches your back is it the same
Do you want her in every single way
every single day

Cause Karma's gonna find you in the end
and then you'll understand
That you fell for her
like I did fall for you

Cause you are nothing nothing
you mean nothing nothing
You were everything to me
oh how you swept me off my feet

You are nothing nothing

you mean nothing nothing
you were everything to me
and now Iâ€™m everywhere you see

Come back donâ€™t go please stay
I dont want you anyway
Come back donâ€™t go please stay
I dont want you anyway
Come back donâ€™t go please stay
I dont want you anyway
Come back donâ€™t go please stay
I dont want you anyway

Cause you are nothing nothing
you mean nothing nothing
You were everything to me
oh how you swept me off my feet

You are nothing nothing
you mean nothing nothing
you were everything to me
and now Iâ€™m everywhere you see

Why donâ€™t you love me like they do
Why donâ€™t you see me youâ€™re a fool
Why donâ€™t you fall for me
Like I did fall for you
