Verse3:[Bun B]

My beater balls bawlers
The biggest the badest the best
Like Cali put the pistol upto your pallet and yes
Keep your lips on your chess
And your brains on your back
No need to kiss me
Going hard is a natural fact
I am back on my business
Backing up them ricks and them bundles
They coming direct through 'em underground Mexican

We got the funnels it's straight us

Cooks in the kitchen
Whippin' like I am Grippin the gator
So keep fakin' and freightin'
Keep shinnin' and stuntin'
Think it's a lot
But Its not mayn relli its nothing
Not to a Boss never to a G
Aint no fucking with Bun B, so

Chorus:

Somebody tell 911 that I am coming
How many niggas ride with me its nothing (it's nothing)
If you got a problem we can get it popping' we aint
running
How many niggas wanna ride with me its nothing(it's
nothing)
