Life seemed so long and I've been buried in my places  
to go and  
People to see hadn't seen you since you last saw  
through me

She or you  
She or you  
You gave life and it killed you  
She or you  
She or you now  
You gave her life and

It killed you to laugh when you were in so much pain  
waves roll down my face  
To see you lying there your mom's in the chair shall we  
read for a moment's  
Peace may come to you tonight may be your last I'd like  
to give to you one last time  
But you couldn't even move your hands to unwrap it  
and to

Taste and see  
Taste and see  
Ways to find your way back home  
Taste and see  
Taste and see now  
Ways to find your way back

In the Brooklyn night I'm in bodegas searching for that  
drink you like  
And you're no stronger than me how can I expect you to  
keep living?

And yet I do  
Yet I do  
I still love you in my way  
Yet I do  
Yet I do now  
I still love you

Way out there is a ruthless silence breaking pieces of

my head

You are no longer in that bed it was a peaceful one they  
said

I'm down to zero with these bottles in a crumpled paper  
bag

What to do

What to do

What to do with the pink lemonade?

What to do

What to do now

What to do

What to do

What to do with the pink lemonade?

What to do

What to do now

What to do with the pink lemonade?
