"One More Chance"

Visit "[One More Chance](#)" on MotoLyrics.com

Time just keeps on passing by
since you've been gone.
And from the day I let you go
no love has come along.

Told me that you loved still
in words from a song.
Said that you would come back soon
now it has been so long.

Chorus (harmony)

One More Chance
Give me one more chance
To prove to you
And I'll prove to you
That our romance
That my heart is yours
Deserves one more chance
I'll be true to you.

I have often wondered
where we went wrong.
And why aren't we together
if our love was so strong.

Tell me you remember
the times that we've shared
open your heart once more
let me take you there.

Repeat Chorus

(Original Bridge)
If we were together
life would be so right.
We would last forever
there'd be no more endless nights.
