Got no car got no gas to go  
Got no direction don't even have a road...to go on,  
(chorus)  
If you want to ride with me inside my day dream car  
And if you want to ride with me we'll stay right where  
we are,  
Got no money got no moter bike  
Got no place to go but please c'mon if you'd like...if  
you'd like,  
(chorus)  
I can bet you there  
I can bet you now  
Pick you up in no time no place like this  
I got no car i never even had the keys  
Mabye a little talk to God self about us when we leave,  
And if you want to ride with me inside my day dream  
car  
And if you want to ride with me we'll stay right where  
we are  
Stay right we are  
Stay right we are  
Stay right we are  
We're gonna stay right where we are  
We're gonna stay right where we are  
We're gonna stay right where we are  
We're gonna stay right where we are  
We're gonna stay right where we are  
We're gonna stay right where we are  
We're gonna stay right where we are  
Stay right where we are
