I'd like to close my eyes and go numb
But there's a cold wind coming from
The top of the highest high rise today
It's not a breeze cuz it blows hard
Yes and it wants me to discard
The humanity I know, watched the warmth blow away
So don't let the world bring you down
Not everyone here is that fucked up and cold
Remember why you came and while you're alive
Experience the warmth before you grow old
So do you think I should adhere
To that pressing new frontier
And leave in my wake, a trail of fear
Should I hold my head up high
And throw a wrench and spokes by
I'm leaving the air behind me clear
So don't let the world bring you down
Not everyone here is that fucked up and cold
Remember why you came and while you're alive
Experience the warmth before you grow old
So don't let the world bring you down

Not everyone here is that fucked up and cold

Remember why you came and while you're alive

Experience the warmth before you grow old

Before you grow old
