It's just another ordinary Monday bloom
Seems all the stars are falling apart for me and you
And I feel happy, happy, I'm so happy
When I fall in love
Because I'm happy, happy, I'm so happy
When I fall in love

Dadadadadadada
Dadadadadadada
Dadananadada
Dananada

Raindrops keep falling on the west day dewing night
But I can feel the sunshine you give me on the light
And you say baby, baby, I'm your baby
When you fall in love
You call me baby, baby, I'm your baby
When you fall in love

Then, God it's Friday I can't wait to be with you
All night were walking to the moonlight rendered
dream
And you're my only, only, I'm your only
When we fall in love
Now we are happy baby, love's the only
Thing for you and me
And you're my only, only, I'm your only
When we fall in love
Now we are happy baby, love's the only
Thing for you and me
