I can't see past that far
My head and my heart's too sore
It's a pain I can't shake
I'm so sick of this stomachache

Well I should have listened when she told me
Well I stuck around even when she said

Get out of my way, I'm gonna break your heart!
Get out of my way, I'm gonna break your heart!
Don't make that mistake, I told you from the start
If this aint love, it's never gonna get that far

I can't eat, forget about sleep
I got five hours last week
My heart's on fire
My brain's a million miles an hour

Well I don't know why you take so long
Well I heard what she said but I must have heard it
wrong

Get out of my way, I'm gonna break your heart!
Get out of my way, I'm gonna break your heart!
Don't make that mistake, I told you from the start
If this aint love, it's never gonna get that far

Outta my way, I'm gonna break your heart!
Get out of my way, I'm gonna break your heart!
Don't make that mistake, I told you from the start
If this aint love, it's never gonna get that far

Get out of my way, I'm gonna break your heart!
I said get out of my way, I'm gonna break your heart!
Don't make that mistake, I told you from the start
If this aint love, it's never gonna get that far, yeah!
