"My First Day Alone"

Visit "[My First Day Alone](#)" on [MotoLyrics.com](#)

here comes the morning sun
It's another day
But today I'm on my own
It's my first day alone
It's my first day alone

Why did I lose my love
Mine till yesterday
Lose the only love I've known
It's my first day alone
It's my first day alone

I can live without so many things
They're so unimportant to me
But I can live without a love that's everything
I'll have to wait and see

I know I'll see the sun
Bring me other days
But will I be so on my own
As my first day alone
This my first day alone

This my first day alone
