Girls would name you chick.
You fly like what I'm feeling
Get it out play tricks.
Addicted to my body
You dreamed of happy end
After all, why don't you understand?

Refr.
Shut up get out of here; don't cry it jealous
I never thought of me and you my dear
Shut up get out of here; you've got to loose your fear
I know your mum will cheer you up my dear.
Shut up get out of here; why don't you disappear.
I never thought of me and you my dear.

(Here we go again)

Me and my cold angel
And you the fool for love
You look like George the second.
You were not good enough
Addicted to my body
You dreamed of happy end
After all, why don't you understand?

Refr.
Shut up get out of here; don't cry it jealous tears
I never thought of me and you my dear
Shut up get out of here; you've got to loose your fear
I know your mum will cheer you up my dear.
Shut up get out of here; why don't you disappear.
I never thought of me and you my dear.
(Here we go again)
