## "Common Sense"

Visit "[Common Sense](#)" on MotoLyrics.com

If you could take me with you

Would you be delicate with me?

This is my first time, communion

I can not breathe or speak or see

I'm outta my mind

I'm outta my mind

I'm outta my mind

There's no words to communicate to you

I'm outta my mind

There's no words to communicate to you

There are no words for what you are

No way I'll ever quite explain

They are too fearfull for reason

Only the fear that is to blame

I'm outta my mind

There's no words to communicate to you

I'm outta my mind

There's no words to communicate to you

I'm outta my mind

There's no words to communicate to you

I'm outta my mind, outta my mind

Communicate to you

I'm outta my mind

I'm outta my mind

If I could stay here forever

No one would ever have to know

You came to take me away

I'm outta my mind

There's no words to communicate to you

I'm outta my mind

There's no words to communicate to you

I'm outta my mind

There's no words to communicate to you

I'm outta my mind, I'm outta my mind

Yeah, communicate to you

I'm outta my mind

I'm outta my mind

I'm outta my mind

I'm outta my mind
