Protection and salvation, in exchange for omission  
Of thy human nature, which intelligence must give  
Eternal life thy doctrine, changing slaves into followers  
Using a human life, that died by the cross, tried to  
show it!

As an act of love  
And our lives he saved!  
Death sentence  
Thy who will not serve and follow  
Ending a life of fear  
To whom they name God

Putting down humankind  
That this day worships  
The Glorious and Dark Angel  
Which Christ and the world  
Will be amused by his wisdom  
"Followers of the sacred and pure"  
Blinded with lies of salvation  
Based on putting down basic instincts

Mystic war... Between good and evil  
Ignorance fights against innocence

A crusade looking for knowledge  
Of the night and it's enchantments  
Running, as fast as the wind  
On top of a lost and defeated faith  
Thy in which division has been located!

Facts are still more useful than words!

Because the master of the world in nature and  
mundane liturgies  
Writes the destiny of his worshipers  
The beauty of things, hidden by the mountains...
