~~verse 1~~

time and time out again
i vowed to pack my bags
get up get outta here
this shit aint worth the stress
but i hung in there
its over now
many nights i had to stop myself
so boy you gotta watch your mouth
see im'a man who can admit
that he's not perfect baby
but i surely admit that you got me going crazy
see our love is oh so real
but i hate the way (hate the way)
hate the way (hate the way)

~~chorus~~

that's why i hate you
but i love the essence of my baby
(oh but i love)
i love and hate my lady
but i love this love hate relationship we share
(oh yeah)

repeat chorus
