It's a triple sided, tried to ride it  
Looked inside it, I can't find it  
Living in a perfect world

I touched the rocks, I touched the stones  
It's the little things that break these bones  
Living in this perfect world

When I can't hide  
But even if I tried  
I can't lie to you  
Just to make you feel better  
Oh oh baby, no no, I can't

Oh, my recent past has moved so fast  
Couldn't keep up, fell on my ass  
Living in this wind up world

Sick and tired, my card's expired  
Why on earth did I get so wired?  
Living in a perfect world

When I can't hide  
But even if I tried  
And I can't lie to you  
To make you feel better

Just run quick, find a car  
No location, just drive it far  
I said, run quick, find a car  
No location, just drive it far

Drive it far, drive it far, drive it far  
Drive so far away, oh drive

And I can't lie, oh no  
No matter how I try  
I can't lie to you  
Just to make you feel better, baby

I can't lie  
No matter how I try

And I can't lie to you  
Just to make you feel better

Yeah, you make me feel better, baby  
I told you all, I wanna feel better
