"City Down"

Visit "[City Down](#)" on MotoLyrics.com

Nothing's eassy bout living in the city
Kinda hard finda a job in town
Living in the city ain't too pretty
Ain't too easy getting around - when you're down

Chorus A

Don't let them direct and run your life
Hell is what they'll cause you on earth
Yes, I know they treat you so mean
Don't give up just keep pushin' on

Life is cold without heat and hot water
The game plan don't include law and order
Ain't no one-act play - with the good winning
You'll get your feelings really hurt - if you're just
beginning

Chorus B

They the director, we the producer
They cast the role, we play it out
A new show is written, truth is the theme
Cast out the liars, a glorious scene

But you got to stay strong Blood sister
You don't have to suffer anymore
It's curtain call for the system
A new script is what we're fighting for

Chorus A

Chorus B
