Shadows of a creature  
Lurking  
It's footsteps  
Haunting misery

It's objective  
To bury you  
Underneath

It's teeth marks  
And scratches  
Bleed through the walls

This room is shrinking  
The floor turned into  
A black hole

It's eyes are glaring  
Turning into violet

This beast  
I've slain before  
I thought it had nothing left

This will be  
The end  
And fall of man

This bitch is  
A machine  
This Bitch just  
Won't give up

This bitch is a machine  
This bitch is a machine  
This Bitch just  
Won't give up  
This bitch is a machine

Bury me  
Oh worthy one

Hide my eyes  
From seeing the sun

Bury me  
Oh worthy one

Hide my eyes  
From seeing the sun

You tried again  
I tore you  
To pieces

No one can help you  
Even in your own sanctuary

You tried again  
I tore you  
To pieces

No one can help you  
Even in your own sanctuary

Your limbs are no more  
Your limbs are no more  
Your limbs are no more  
Your limbs are no fucking more

I'm here  
Still breathing  
Living again

Nothing can stop me  
I've defaced you before

Wait my eyes  
Are burning  
Sun is eating my flesh

The streets are empty  
Empires have fallen

I Boy down  
You win

Tried to grow  
But I failed again
