You and I we started out  
I thought that we were cool  
You took the time, you read my mind  
There's nothin' you wouldn't do, yeah  
I give, you take  
I got news we're gonna break

Is it kickin' in  
Yeah, my nerves are raw  
And they're wearin' thin  
Is it kickin' in  
I know I've said it before  
You wanna play me again  
I'm not a freak show  
Ego kinda thing  
I can suck it up or spit you out  
So take your best swing  
I'm gonna jump right off of this sinkin' ship  
Are you feelin' me yet  
Is it kickin' in

One day you might discover that I used to care  
I'll be that speck in your rear view mirror  
The back that just won't scare, yeah  
Humm, oh well, too bad  
I'm the best you ever had

Is it kickin' in  
Yeah my nerves are raw  
And they're wearin' thin  
Is it kickin' in  
I know I've said it before  
You won't play me again  
I'm not a freak show  
Ego kinda thing  
I can suck it up or spit you out  
So take your best swing  
I'm gonna jump right off of this sinkin' ship  
Are you feelin me yet  
Is it kickin'.  
In

[Instrumental Interlude]

I give you take  
I got news we're gonna break  
Oh, well too bad  
I'm the best you ever had

Is it kickin' in  
I'm not gonna break  
I'm not gonna bend  
Is it kickin' in  
It's the same old lies  
So this is goodbye

Kickin' in  
Yeah, my nerves are raw  
And they're wearin' thin  
Is it kickin' in  
I know I've said it before  
You won't play me again  
I'm not a freak show  
Ego kinda thing  
I can suck it up or spit you out  
So take your best swing  
I'm gonna jump right off of this sinkin' ship  
Are you feelin' me yet  
Is it kickin' in  
Oh, oh, is it kickin' in  
Is it kickin' in
