You always say that i have multiple personalities
I bounce somewhere between dreams and reality
So where'd you dig up the odacity to ask me
How we've all been doing
Since you broke our hearts
(well so far..)

(chorus)

Number 5 just cries a river a minute
7 wants to tie you up and drown you in it
Yeah, 14 just wants to say so long, bygones
32 wants to do things to you that'll make you blush
10 wants to key the el camino that you love so much
And there ain't nobody that wants to mess with 23
Oh, lucky 4 you tonight i'm just me

I guess this party's more than your new barbie
bargained for
She's got you by the sleeve slowly easing towards the
door
She's probably right, you should be movin' on
Don't know how long we can behave
Better have the valet get your car
(cause you know how women are)

(repeat chorus)

Bridge:
Forgfveness is the key
According to my shrink
But it's not up just up to me
(i don't know girls, what d'ya think?)

(repeat chorus 3x)

(fade)
