You're just the latest thing
And I really want you
And I'm out on a limb
Cause the stars have got you
You've got stars in your eyes
Can I be part of it
You've got stars in your eyes
You've got stars with you
I'll never be apart from it
I can see in your eyes
I would spend some time with you
If you were my girlfriend
But I will never get close to you
And that's a god send
That's a god send
That's a god send
