Come to the rescue now

Come to the rescue and stay for a little while

Come to the burning house

All of the ladybug's children are screaming fire

Come to the rescue now

CHORUS

Tomorrow may change--tomorrow may change

Or it may never come

Tomorrow may change--tomorrow may change

But it may never come

Turn around--turn around--turn around--what do you
see

Come to the rescue now

Come to the rescue before all our worlds collide

Life is a dream somehow

Life is speck of dust lodged in God's eye

Life is a dream somehow

Come to the rescue now

Come with a mission and come with a broken heart

Life is a dream somehow

Life is a dream and our lives are a world apart

Come to the rescue now

CHORUS

Come to the rescue

Life is a dream somehow

Life is a nightmare and life is a bitter pill

(Life is a dream somehow)

Life is a Disneyland ride which is better still

Come to the rescue now

Life is a drowning pool

Life is a circus for fools just like you and me

Life is a mortal coil

Wrapped in cheap tin foil on a kitchen sink

Come to the rescue now

CHORUS

Dreams somehow, come to the rescue now .
