You've got me so I'm running round and round in
circles

You've got me so I can't see my own face

You've got me so I feel I've been like this forever

You've got me so I'm crazy with disgrace

I know what's on your mind

But it's not what you think it is

I know what's on your mind

But it's not what you think it is

Running on a treadmill after you and I'm

Running on a treadmill now

Running on a treadmill after you and I'm

Running on a treadmill now
