We close our eyes
We close our eyes and dream
And the world has turned around again
When everybody is runnin' in the big race and
Havin' a good time
Who am I to cast a shadow
Who am I
I looked Death in the face last night
I saw him in a mirror
And he simply smiled
He told me not to worry
He told me just to take my time
We close our eyes
And that world has turned around again
We close our eyes and dream
And another year has come and gone
We close our eyes
And the world has turned around again
We close our eyes and dream
And if you come to me
And if you touch my hand

I might just slip away

I might just disappear

Who am I

And if you think I'm worth it

And if you think it's not too late

We might start falling

If we don't try too hard

We might start falling in love

We close our eyes

And the world has turned around again

We close our eye and dream

And another year has come and gone

We close our eyes

And the world has turned around again

We close our eyes and dream

We're on a healing path

We're on a rollercoaster ride

That can never turn back

And if you love me

And if you really try

Make the seconds count

And we can close our eyes

We close our eyes

And the world has turned around again

We close our eyes

And another year has come and gone

We close our eyes

And the world has turned around again

We close our eyes and dream

We close our eyes

And the world has turned around again
