Break out!  
It's time for a shake down  
Stake out,  
Watch the doors and we'll sneak out

And I'll still be here sober,  
When this is over  
It's just like I told her,  
"You wait till you're older"

Crying,  
Almost feels like you're dying  
Chokin',  
On those words that we're spoke

And I'm almost through  
With everything  
That I once thought was true  
And all that pulls us through  
Has faded into shades  
Faded into shades, of you...

Mistakes that I have been  
Are nothing like the pain, I have seen  
Let's leave it all behind  
Escape into the light  
And give it one more try, one more try  
And give it one more try, one more try

Burn it down and let it smelter,  
Break it down and watch it crumble  
Tear it down, ya we'll destroy you,  
Everything has been untrue

Tell me!  
One day this will be  
Something that I'll believe,  
Alone to find my peace

Shout loud!  
Bolt the doors, it's a lockdown

Hush now,  
All these moments we've missed out

Tell me something I don't know,  
Show a safe place I can go  
I need you now more than you know,  
Let's leave this now  
Just go, go, go...

Go!  
We'll roll  
We'll go!  
We'll roll

Trade it all for separation  
Is this what's left for our nation?  
Tell me lies, tell the truth,  
Give me hope but have no proof

There's nothing left to long for,  
I'm happy in my loneliness  
I'm broken by your ways,  
I'm erasing every phase

Go find yourself a quiet place,  
Safe when you're away  
No nothing here could make me stay,  
No nothing here could make me stay

I'm only free,  
When I'm unknown
