Hello old Lady
I know your fave well
I know it well
She says - ooh-na-na-na-na
I'll be sitting in your mirror
Now is the place where the crossroads meet
Will you look into the future.

Never, never say goodbye
To my part of your life
No, no, no,
Oh, oh, oh
Let me live
She said c'mon let me live
She said c'mon let me live girl

This moment in time
It doesn't belong to you
It belongs to me
And to your little boy and your little girl
And the one hand clapping
Where on your palm is my little line
When you're written in mine
As an old memory
ohh-na-na-na-na-na
Never never never say goodbye
To my part of your life
No, no, no, no,
Never, never, never, never
Let me go.
She said c'mon let me live
She said c'mon let me live girl
