

Casualties, The "Authority Is Dead"

Visit "[Authority Is Dead](#)" on MotoLyrics.com

We dont need no law and order
What happened to the freedom punk gave us
What happened to the no rules class
What happened to the individuality that punk gave us

Authority is dead think for yourself

They come in the name of peace and hate
Trying to brainwash the youth of today
You better watch out with what you say
If you dont think like them they'll make you pay

Authority is dead think for yourself

Always getting hassled by the man in blue
For looking different and not following the rules
Always looked down upon by the man in the suit
I'd rather me be than be a 9 to 5 fool

We don't follow any rules or laws
We are the ones you hate the most
We don't follow and leaders or groups
We are the punx of today you cant use as tools

You were given the right to chose and not to follow any
trends
So think for yourself
You were given that right to choose
So just be yourself and don't follow any rules
