Our ripped up clothes is pain
The holes in my shoes are no trend
The low paying jobs we get
Our noise has to be heard

Fight for your life
Don't ever give up the fight
Our time will come one day
"Life is easy", nobody ever said
But I'll make the best of it that I can

Fight for your life
Put your head up high
Never give up the fight
So let them all fucking know
We'll stand up for our rights

Fight for your life
The time is fucking right
To stand up and fight
Our sweat will not be in vain
Our screams have to be heard
