You put your army on the street  
But I can't see the peace they keep  
They beat you up and gun you down  
The mayor wears the fuckin' crown

Call it Justice, Call it law  
It's just another lie

They prey on the poor, they prey on the weak  
These vultures that patrol the streets  
They'll take a bribe and they won't think  
They'll shoot you down won't even blink

Call it Justice, Call it law  
It's just another lie

Don't go outside the cops are there  
There's law and justice everywhere  
Look out for justice dressed in blue  
'Cause next time they'll be coming for you

Call it Justice, Call it law  
It's just another lie

Try to fight 'cause they're corrupt  
You speak your mind, they'll lock you up  
How long can this shit go on  
They'll kill us all before too long

Call it Justice, Call it law  
It's just another lie
