

Casualties, The "Kill Everyone"

Visit "[Kill Everyone](#)" on MotoLyrics.com

punk has gone through changes
the tribes all get along
from working class to politics
destruction for us all

[Chorus]
KILL A NAZI
KILL A BONEHEAD
KILL EVERYONE
NAZIS OUT...OUT OF PUNK

all these fucking boneheads
they think they know it all
they're just fucking jocks
destroying all the shows

[Chorus]

they're always on the streets
panhandling off punks
these crusties with big boots
but they're brains are too small

[Chorus]

don't give me alternative
don't give me any rules
we look it and we love it
to all of you i say fuck off

[Chorus]

Oi!
