Politicians everywhere  
Coming over to the shows  
You can see them at the shows  
Preaching crap like they know it all

Politicians....[x3]  
No More Politicians

Politicians on the streets  
Won't leave me alone, won't let me be  
They always try to bring me down  
'cause I'm punk in the Underground

Fucking preaching to you and me  
With your preach of anarchy  
You were the first to say punk is dead  
but it's alive and doing well....Go

Politicians....[x3]  
No More Politicians

Politicians go away  
Don't need your kind, don't need it here  
You used to wear the business suit  
Now you're wearing combat boots  
Politicians Everywhere  
Stupid long and dready hair  
You can see them during the shows  
Preaching lies, I know you all

Politicians....[x3]  
No More Politicians....AARGH
