Fucking preachers at your school  
they all know what's right for you  
Fucking preachers at your work  
They know what's right or wrong

Fucking preachers at your church  
In the name of God they control the poor  
Fucking preachers in the scene  
I know your political schemes

Preachers at your school  
Fuck all the schools  
Preachers at your work  
Fuck all kind of work  
Preachers at your Church  
Fuck their religious wars  
Preachers in the scene  
Fuck them all

Fucking preachers at your school  
Trying to brainwash all the youth  
Fucking preachers at your work  
Give us numbers to keep us under surveillance  
Fucking preachers at your church  
They are the devils hand, God hates them the most  
Fucking preachers in the scene  
I know your fucking political scheme
