you always feel discouraged about the system we have  
to go to school and train you for the upper class  
the money that they give you is enough to keep you  
alive  
so you can keep training for the master plan

[chorus]

stay out of order...step out of their plans  
stay out of order...you only live once  
stay out of order...come and have some fun  
OUT OF ORDER

you finish school and get A to B if you can find one  
break your back for others so they can have the cash  
form a family and reproduce for their kids to have  
some fun  
is that what life is all about  
it's not in my plan

[chorus]

now you're old and grey they tell you to enjoy life  
whatever left you have  
you look back in anger what a waste of time  
you were just a puppet there's no second chance

[chorus]

go out on weekends, i go out every night  
they tell you what to read, i read behind the lines  
the money that they give you is enough to keep you  
alive  
so you can keep training for THEIR MASTER PLAN

[chorus]
