All you hypocrites out there always  
Telling fucking lies  
Always Talking behind my back  
Every fucking chance you get  
Two Faced - I know your name  
Two Faced - I know your game  
Two Faced - I know your kind  
Two Faced - You're Full of Shit  
You're a two faced cunt

So you're coming once again  
Telling lies to all my friends  
Always telling bullshit lies  
Every fucking chance you get

So you do it one more time  
Spreading rumors and spreading lies  
Always telling bullshit lies  
Every fucking chance you can.
