gang from the suburbs, in the underground  
they're punching and kicking everyone around  
don't give me none of your 2-faced shit  
don't agitate me cause this is it

[chorus]

they'll do anything to see what they can find  
as long as it leaves some poor bastard blind  
you kick him in the guts and leave him laying in the  
streets  
then stab him in the back and they turn on the heat  
oohhh we're the underground army- tell me what you  
want to see  
we're the underground army- just be what you want to  
be  
we're the underground army- and do what you want to  
do  
we're the underground army- and no one cares about  
you

they roam the streets, late at night  
all they want to do is destroy and fight  
they don't care what goes on  
they'll do anything as long as it's wrong

[Chorus]

when you go out, don't go alone  
you'll end up under a tombstone  
fighting out of desperation  
leads to more agrivation

[Chorus]
