I wake up at night and feel you next to me

Open my eyes and watch you sleep and touch your
hand

I feel so alive, it's all comin' over me

I finally found out what it means to be a man

Chorus:

You're a lady, your light shines on me, my love

The search is over, I see all I ever wanted in your eyes

The search is over in my life

I used to be lost, wanderin' endlessly

I never knew life could be anything more than holdin'
on

But you came along, it felt like a raging sea

You've changed my world, and given me strength to
carry on

(chorus)

From the first moment I knew, 'cause this kind of
dream can only come true, oh

(Solo)

(chorus)
