I feel the raise
In my back
Shaking me up
Black is the night
You want me gone

And don't smile
Never mind
I see trough you
I know what you're up to
Don't try coz we are cats and catch the scratch

I can feel it raising my back
Black is the night you want me gone (are you excited by
it girl?)
I can feel it raising my back
Shaking me up and down

2x
In the club
In the night
Dum di dum di dam
(Just a teaser)
(Tease you with my body tonight)

Drop the bomb
Spit it out
I'm the lollipop that you licking
(Looking at my body, looking at my body)

I smell the blood in the air
Will you attack me in despair
You want me gone (out of sight)

(â€¡)
Don't look behind
I feel the threat
I know what you want
But don't try coz we are cats and catch the scratch

I can feel it raising my back

Black is the night you want me gone
I can feel it raising my back
Shaking me up and down

2x
In the club
In the night
Dum di dum di dam
(Just a teaser)
(Tease you with my body tonight)

Drop the bomb
Spit it out
I'm the lollipop that you licking
(Looking at my body, looking at my body)

2x
